We Must Act as One to Preserve Our World

During this period of confinement for most of us, limiting our freedom to travel out of our country of residence, Hon. Riza Tevfik Morova, Consul General of San Marino in Turkey, and all Morova family have initiated a valuable action by cleaning rubbish along the Aeagean coast.

Hon. Riza Tevfik Morova is definitively showing us the right way to act for a better World: today, we have to pay our own errors towards our planet and each one is responsible to be actively involved to preserve the nature.

Congratulations to Morova family and all those who have understood how important it is to act as One to Preserve Our World!
